PROFESSIONAL SUMMARY

MCA graduate with strong foundations in Java, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Operating Systems, and Computer Networks. Hands-on experience developing Spring Boot applications, REST APIs, SQL databases, and React.js interfaces through internships and academic projects. Passionate about building scalable software solutions and collaborating in Agile software development environments.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, Python, SQL
- **Frontend:** HTML5, CSS3, React.js, Bootstrap
- **Backend:** Spring Boot, Node.js, Express.js, REST APIs
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Computer Networks, SDLC
- **Developer Tools:** Git, GitHub, Maven, Docker, Postman, VS Code, Eclipse
- **Concepts:** CRUD Operations, API Integration, Unit Testing, Debugging, Agile Methodology

EXPERIENCE

NavBunnies

Web Developer Intern

Bengaluru, India

Jun 2025 – Feb 2026

- Developed web applications using Java, Spring Boot, React.js, JavaScript, HTML5, CSS3, and MySQL.
- Built REST APIs and implemented CRUD operations using Spring Boot and SQL databases.
- Tested APIs using Postman, optimized SQL queries, and resolved application bugs.
- Collaborated in Agile teams using Git/GitHub for version control and code management.

Edunet Foundation

MERN Stack Intern

Bengaluru, India

Dec 2024 – Feb 2025

- Developed web applications using MongoDB, Express.js, React.js, and Node.js.
- Built responsive UI components using HTML5, CSS3, JavaScript, and Bootstrap.
- Developed REST APIs and implemented CRUD operations with MongoDB.
- Used Git/GitHub for version control and debugging in an Agile environment.

PROJECTS

- **Banking Management System** Java — Spring Boot — Hibernate — MySQL — REST APIs: Developed a Banking Management System using Java, Spring Boot, Hibernate/JPA, and MySQL following layered architecture. Implemented secure user authentication, account management, fund transfers, transaction history, and CRUD operations. Designed REST APIs for seamless frontend-backend communication and used Git for version control.
- **AI Infrastructure & Cost Analysis Dashboard** Python — Streamlit — Pandas — Matplotlib: Developed an interactive dashboard using Python, Streamlit, Pandas, and Matplotlib to analyze AI infrastructure costs and model performance. Processed large datasets, generated visual reports, and provided optimization insights through interactive charts and data-driven analysis.
- **AI-Powered Multilingual Speech Translator** Python — Faster-Whisper — Meta NLLB-200 — NLP: Built a real-time multilingual speech translation application using Faster-Whisper, Meta NLLB-200, and Python. Integrated speech recognition, machine translation, and text-to-speech pipelines to deliver accurate translations while applying Natural Language Processing (NLP) techniques.

EDUCATION

Atria Institute of Technology

Master of Computer Applications (MCA)

Bengaluru, India

2023 – 2025

Indian Academy Degree College

Bachelor of Computer Applications (BCA)

Bengaluru, India

2019 – 2022

CERTIFICATIONS

- Java Full Stack Development Certification
- JPMorgan Chase & Co. Software Engineering Job Simulation – Forage
- AWS Solutions Architecture Job Simulation – Forage
- Deloitte Australia Data Analytics Job Simulation – Forage
- Python for Data Science & SQL Certification
